

## PART 1 - Description, summary & objectives

Application for Forest Plan Approval	2
Contents	3
Our Shared Forest and the Forest Plan process	4
Forest Plan Summary	5
Location and description	6
Tenure & Management Agreements	7
Management objectives	8
Meeting Objectives	9

## PART 2 - Character, analysis & concept

Landscape Character	10
Designations	11
Analysis & Concept	12-22
• Trees and Woodlands	12-14
• Wildlife and Wild Spaces	15-16
• Geology and Soils	17
• Water	18-19
• Cultural Heritage	20
• Built Heritage and Archaeology	21
• Community and Recreation	22

## PART 3 - Composition and future management

Woodland Composition	23
Woodland Naturalness	24
Broadleaf Management	25

## PART 4 - Thinning, felling and future composition

Silviculture and Low Impact Silviculture (LIS)	26-29
Felling and Restocking 2024-2034	30-35
Indicative Future Species, 2034	36
Indicative Future Species, beyond 2051	37

## PART 5 - Conservation, heritage and recreation

Conservation Habitats and Features	38
NE Priority Habitats	39
Water & Riparian Management	40
Heritage Features	41
Recreation and Public Access	42

## APPENDIX 1: Physical environment

Geology	43
Soils (see concept and analysis)	(17)
Landform	44
Landscape Analysis	45-50

## APPENDIX 2: Management considerations

Option Testing and Production Forecasting	51
Coupe prescriptions for LIS Coupes previously identified for clearfell (& coupe numbers)	52-56
Pests and Diseases	57-58
Fire prevention, adaptation and resilience	59

## APPENDIX 3: Supporting Information

Glossary of Terms	60-62
Stock data - 2024	64-67
Habitats Regulations Assessment screening	68-70
